Definition of Gentlemen.—This is a New York Sun man's idea of a gentleman: A man that's clean inside and out; who neither looks up to the rich nor down to the poor; who can lose without squealing and who can win without bragging; who is considerate of women, children and old people; who is too brave to lie, too generous to cheat, and who takes his share of the world and lets other people have theirs.

Perjury Charges Face Principals In Character Wrecking Plot

Grand Jury Indictments to Follow an Incident to Lorimer Case.

Chicago, Ill., July 19.—With the confession of Mrs. Josephine Henning that the suit for \$25,000 damages for the alienation of her affections brought by her husband against Clarence S. Funk, general manager of the International Harvester company, was nothing more than a "frame up" to ruin the latter's character, it is expected that the grand jury will shortly hand down indictments charging perjury against all those who testified and swore falsely against Mr. Funk.

The plot to ruin the International Harvester official grew out of his testimony in the investigation into the insure the election of William Lorimer, who has just been expelled from the United States senate. Funk involved Edward Hines, a millionaire lumberman, stating that Hines had approached him and asked him to contribute \$10,000 to the \$100,000 fund that had been used

DEMING SCHOOL BOARD ORDERS EQUIPMENT FOR NEW DEPARTMENT; CAR OF MIMBRES BEANS SHIPPED

Deming, N. M., July 19.—At a recent meeting of the school board of directors of the Deming public schools, a full equipment was ordered for the teaching of domestic science in the high school. The equipment will be sufficient for the accommodation of 100 students. Judging from the popularity of the manual training department in the high school, it is expected that the domestic science department will be largely patronized. About 100 students took the manual training course in the high school last year. Miss Ruth Bright, a graduate of the Agricultural College of Kansas, has been elected to superintend the domestic science work. All of the supplies for the Deming schools for the ensuing year have been ordered through a local dealer.

Mme. D'Mille's Beauty Hints
(From the Journal of Fashion.)

"No woman who prizes true beauty will neglect her eyebrows and eyelashes. Brushing the eyebrows trains them to grow arch-shaped and applying pyroxin will make them grow thick and silky. Pyroxin applied to roots will make the lashes grow long and silky.
To keep the skin clear, smooth, fair and pliant, use a simple complexion beautifier made by dissolving an original package of mayotone in a half-pint of witch hazel. Gently massage face, neck and arms with this and you will escape freckles, tan and sunburn. Therox makes the hair light and fluffy, it gives a lovely, soft and youthful complexion.
Any person desiring abundant, glossy hair should use a dry shampoo frequently. Mix four ounces of powder of therox and sprinkle a teaspoonful of this mixture on the head and brush it thoroughly through the hair. Therox makes the hair light and fluffy, and beautifully lustrous.
Paste made by mixing water with a little powdered delatone and applied to a hairy surface will remove every trace of superfluous hair or fuzz. Leave the paste on a minute or two, then remove and wash the surface. This treatment is safe, sure and speedy and leaves the skin hairless, firm and smooth."

Stopped No Two.
Mrs. W. Cox then said she decided she should stop No. two, a passenger train, which, she said, ran by the signal, ten minutes later the mail train, No. eight, crashed into train No. two. The witness admitted that if she had not misunderstood the telephone message she would not have stopped train No. two, and the accident probably would not have occurred.

Mrs. Wilcox appeared calm while giving her version of the wreck and repeated several times the statement that she did not think she had done anything wrong.

Coroner Hoffman, member of the jury and representatives of the Interstate Commerce commission and the Illinois railroad and warehouse commission, found it difficult to obtain direct answers to questions on several occasions. The witness frequently argued with her interrogators and contradicted some of the testimony previously given by flagman Frank Woodworth, of train No. two. The latter testified that on leaving the passenger train after it stopped he went directly back to flag the mail train. Mrs. Wilcox testified that he first went forward to the locomotive and then walked back toward the signal tower.

Denies Flagman's Statement.
She first denied flagman Woodworth's statement that she had changed the signal from "danger" to "clear" after train
